Summary

QA Analyst with 4+ years of testing web-based and client/server applications, including SaaS billing, sales-commission and enterprise intranet systems. Experienced in test planning, test case design, traceability, and functional, regression and GUI testing with OpenText ALM (Quality Center), UFT One (QTP), JIRA and SQL. Two-time QA trainer and NJDOE-certified substitute teacher.

Experience

QA Analyst (Consultant) Oct. 2012 – June 2013
IEEE *Piscataway, NJ*

- Tested the "Inside IEEE" intranet redesign on Liferay Portal CMS: content authoring, search, Quicklinks and security
- Tested the data flow of the "Reprints Online Order" system for IEEE journals and publications
- Wrote test plans and test scripts, and built requirements traceability matrices linking requirements to test cases
- Prepared positive and negative test data; ran functional, GUI and regression tests after every fix and enhancement
- Managed the defect life cycle in HP Quality Center and later ALM; logged, tracked and reported defects
- Documented test procedures and results for reuse in later releases, and kept testing in line with QA guidelines

QA Analyst – Business Systems (Consultant) Jan. 2012 – June 2012
Intralinks (SaaS virtual data rooms) *New York, NY*

- Tested the RevChain billing system (usage, invoicing, accounts, lockbox files) and the Varicent commission system
- Gathered test requirements with business analysts, developers and users; wrote test plans, scenarios and cases
- Installed HP QTP 11; built automated GUI, functional and regression scripts with parameterization and checkpoints
- Validated commission calculations, payee statements and sales reports against Varicent output and SQL Server data
- Set up test environments and data; tracked defects in Atlassian JIRA and reported status in daily stand-ups

Quality Assurance Trainer Aug. 2011 – Dec. 2011
Vforce Infotech *Iselin, NJ*

- Taught manual testing, QTP automation, LoadRunner performance testing and Quality Center test management
- Designed sample test plans, scenarios and scripts, and set standards for judging release readiness
- Coached trainees to analyze and document defects, and to produce bug and status reports in Quality Center

Quality Assurance Trainer 1998 – 2000
Pentasoft Technologies Ltd *Bangalore, India*

- Taught manual testing and test management with Test Director; planned test schedules to fit project deadlines
- Installed and configured copies of production environments for performance testing
- Investigated escalated customer issues; did first-level debugging from configuration files, logs and code

Additional Experience

Substitute Teacher (NJDOE Certified) Jan. 2024 – Present
K–12 schools, Middlesex and Union Counties *New Jersey*

- Teach elementary through high school classes from each teacher's lesson plans, managing the classroom for the day
- Adapt to new schools and subjects on short notice; support students with special needs and behavioral challenges

Education

Bangalore University Bangalore, India
Bachelor of Engineering in Instrumentation and Electronics

Technical Skills

Testing: Functional, Regression, System, Smoke, GUI, Black-box, Data Validation, Test Plans, Test Cases, RTM
Test Tools: OpenText ALM / HP Quality Center, UFT One / QTP 11, LoadRunner, Test Director, JIRA, ClearQuest
Languages & Databases: VBScript, SQL, Java/J2EE, JavaScript, HTML, XML, MS SQL Server, Oracle
Platforms: Liferay Portal, Endeca, Crystal Reports, Varicent, SVN, SharePoint, UNIX, Windows, MS Office, Visio
Certifications: Substitute Teacher Certificate, New Jersey Department of Education
